

PARENT CODE OF CONDUCT PLEDGE

REFEREES, COACHES and PARENTS together have an enormous impact on the lives of thousands of youth soccer players in the United States. Each parent must be accountable for his actions and teach his own son or daughter to do the same. Referee's, coaches and parents form a trio of role models from which many of our young men and women learn behaviors that they will carry into adulthood. Cooperation, respect and maturity among the adults in soccer will encourage those qualities in the players. Please attend THE PRESEASON PARENT MEETING (your coach will contact you where and when).

If you feel you want to be involved in the program VOLUNTEER. Volunteer to coach. Volunteer to help the coach. Volunteer to become a referee. Volunteer to paint the lines on the field or help to set up equipment at the start of the season. We are all Volunteers and without our efforts the program does not exist. We need your help so become one of us so that the children can continue to play in a positive, fun experience. Your participation in the program is welcome. Indicate your willingness to participate on the registration form.

GHYSA would like to thank the vast majority of parents that support the goals, philosophy and spirit of our organization in creating a positive, fun environment for the children to learn the game of soccer. Unfortunately each year we have had a problem with a small group or isolated individuals that together do not understand the organizations philosophy and persist in creating a negative environment for our children. Greater Hazleton Youth Soccer Association has adopted the following position to provide a positive environment for all children involved as participants in the GHYSA soccer program. We are asking all parents to commit to supporting the GHYSA philosophy and below listed expectations. GHYSA philosophy can be view on our web site at <http://www.eteamz.com/ghysa/> Parent who do not support the philosophy and expectation may affect their children's opportunity to participate in the program and may affect the parents' opportunity to participate as a spectator. Violation incidents that are not supportive of the organizations philosophy and expectations will be investigated by the board of GHYSA.
